

PACKING INFORMATION

We are excited to have you join us for a COR Expedition this winter! Please read over the following information carefully in order to prepare for your course and arrive with the proper clothing and personal gear. The second page of this document is a complete packing list, including both the items that are available from COR *at no additional cost* and the items that you must bring yourself. Please submit your gear reservation form for the items available from COR via the link below. Forms must be submitted by the date listed in your email to guarantee proper sizing and availability.

- Pack items suitable for backpacking – i.e. lightweight and compressible
- NO COTTON CLOTHING
- Expedition Backpacks should have a capacity of 65+10L or more
- If you are packing for the trip in your own backpack, please bring a second bag (book bag/duffle) to contain items that will remain in the car
- Sleeping bags should be rated for 0-20°F and have a compression sack
- If you would like to bring your own skis or ski boots, please contact info@corexpeditions.org to make sure they will be appropriate for this trip. Furthermore, mid-quality sunglasses or above are preferable for this trip rather than ski goggles, although feel free to bring both if you'd like.
- Ski apparel such as a ski jacket or ski pants should be only lightly insulated (if at all) and have venting capabilities. Traditional resort wear is not designed for the type of uphill travel that we'll experience on this trip and will leave you sweaty and cold rather than warm and dry.
- Many of the items on this list are available from mass-retail stores such as Walmart or Target if you do not already own them. However, please do NOT purchase your hiking/snow boots from such stores. Invest in high-quality hiking or snow boots that are *actually waterproof* and break them in before your trip – your feet will thank you.
- Remember that weather can change rapidly in the mountains! Anticipate temperatures from -20° to 40°. Warm layers are essential.
- A clean set of clothes for your trip home is highly recommended!
- Feel free to bring a journal, a small Bible, other reading, etc.
- COR Expeditions provides stoves, cooking supplies and group gear. There is no need to bring these items unless you would like to use your own gear.

-
- ALL items on the following list are **required** unless otherwise stated
 - Rental Gear is provided *at no additional cost!*
 - **You will be responsible for the full replacement cost of any lost or damaged gear** beyond normal wear and tear or manufacturing defect.
 - If you have questions about any of the items on this list as you prepare for your trip, please contact us *before* you pack or purchase! We are more than happy to help!

Items Available from COR (no additional cost)*

*Gear reservation form required - if you do not request an item, it is assumed that you are bringing it yourself.
